Numbers in parentheses indicates the difference since the last update; numbers are updated Mondays, Wednesdays, and Fridays. For a daily case summary, visit <https://www.coronavirus.kdheks.gov/160/COVID-19-in-Kansas>

My apologies for the typo in Wednesday's update. That should have read "+3" increase in total positive Pottawatomie County cases, not "+8".

In addition to the concerns about COVID-19, earlier today KDHE announced potential air quality impacts from Sahara dust expected across Kansas in the near future. Additional information as well as steps to help protect yourself is available at <https://khap2.kdhe.state.ks.us/NewsRelease/PDFs/6-26-20%20sahara%20desert.pdf>.
