

Survey Results

83%

Respondents who say they walk at least a couple of times a week

Respondents who say they walk for recreational purposes

96%

54 out of 96 reponses identified **safety** as their number one priority when it comes to walking and biking in the Green Valley Area.

23 out of 96 reponses identified **a bridge over Elbo Creek** as their number one priority when it comes to walking and biking in the Green Valley Area.

“The narrow bridge on Green Valley Rd needs to be replaced and/or a pedestrian bridge is absolutely necessary.”

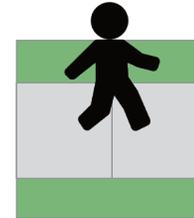

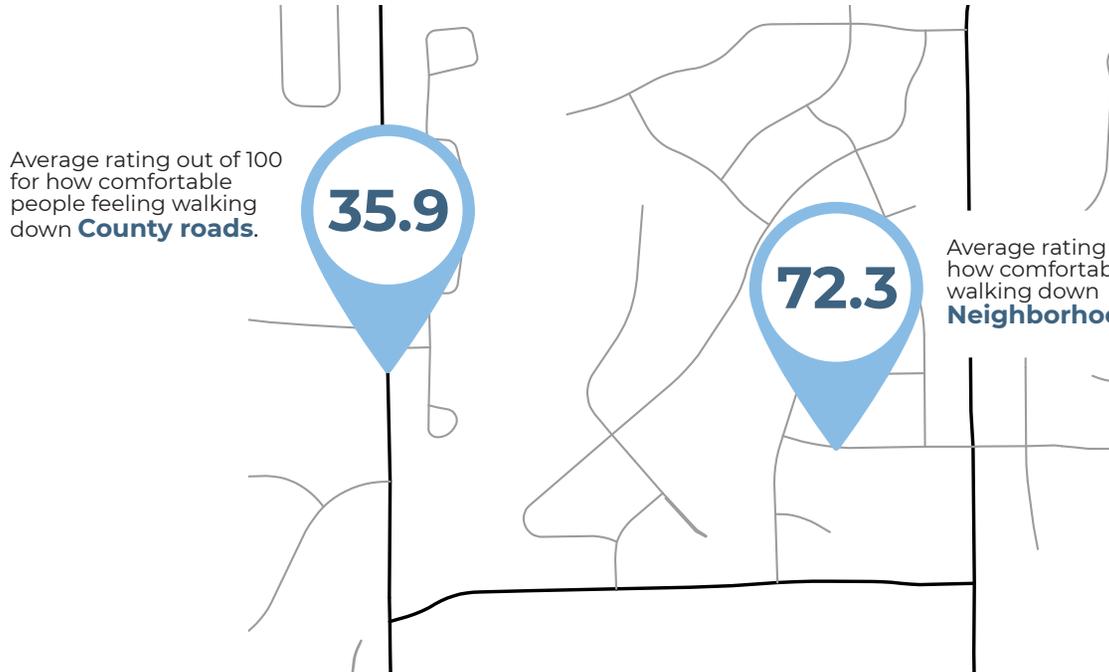

“Safety, sidewalks, lighting”

“Visibility of crossings at intersections (illuminated and street crosswalk paint)”

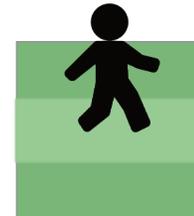

“There needs to be safe routes for walking and bike riding. As we look at the new school opening, there is no safe route for kids to walk or ride safely to school.”

“Getting a bridge across the creek. I hate walking or biking across it because I’m afraid of getting hit by a car.”

Survey Results

Respondents in neighborhoods **with** sidewalks felt their neighborhoods were **20 points more** comfortable to walk through than neighborhoods without sidewalks

Respondents in neighborhoods **without** sidewalks felt County roads were **10 points less** comfortable to walk down than neighborhoods with sidewalks

“Improved lighting of sidewalks/streets would be helpful on Green Valley Rd”

“No sidewalks and inattentive drivers.”

“Drivers do not watch for pedestrians/bicycles. Too much traffic on the major roads.”

“I rarely run in my neighborhood because of people not keeping their dogs on their property.”

“I feel OK where there are sidewalks, such as on most of Green Valley Rd. Gravel roads and roads without shoulders make me more nervous for my family to walk or bike on.”

“I feel comfortable while in the neighborhood itself. I’m not comfortable when I get out on the main roads.”
